**In home visit:** A home visit consultation usually takes 1.5-2hrs and we will first itemize the issues that you are currently dealing with and prioritize them. We discuss why the dog is exhibiting these behaviors, how to better understand them, when and how to correct it. Then we will actually try to elicit some of the behaviors and practice correcting them. Lastly, I will write down the details of the plan. Home visits can be used for correcting bad behaviors, anxiety issues, remote collar training, a prelude to attending class with a reactive dog and more. Home visits cost is \$175.00 for in-county homes and \$200 for surrounding counties . While most clients find that they are confident enough with the training plan moving forward to cover future situations if you wish follow up visits they are \$88/\$100 hr (sold in 30 minute increments) .

We do have an online registration process so you would follow the link below to the calendar page of the website and the simply click on the class that you wish to join and

it should walk you through the registration process. Please let me know if you have any problems or other questions.

The next session of classes including Beginner classes will begin the week of April 8th

If you wish to learn remote collar training, then the collar I recommend is the Sportdog 425x (do NOT get the 425 xs or the one that is the color camo)

If you decide to move forward with an In Home visit you need to get back with me with a list of the behaviors we'd be working on, some days/times that are good for you( remember I'll need a 2 hour window), and your home address.

I look forward to working with you.

Sincerely,

Karen Vaden

Congratulations on your puppy.

Depending on when you start your puppy will tell you how many classes you can do because Puppy class from 6 weeks to until 20 weeks of age. We usually suggest 1 a week unless

your puppy is a bit shy or unsure and then maybe 2 a week would be good.

You can join in at any time for Puppy class so you don't have to wait for a new session.

After 20weeks of age your pup would move into our Beginner Obedience class.

**Puppy Class:** Open to puppies 20 weeks old and under. This class is to ensure that your puppy starts off on the right paw. It works primarily on social skills to both people and other puppies, confidence issues, and walking on a leash. The class has for 10 min components 10 minutes of being handled by the other owners in the class, 10 min of supervised playtime with the other puppies, 10 minutes of puppy obedience commands (walking on a leash, sitting, and the beginning of the "Come" command), and 10 min of the puppy confidence course where puppies conquer climbing obstacles, noisy obstacles, agility jumps, and many other sensory obstacles (to develop confidence).
